

Vocational Nursing Program

Take the next step towards a career in nursing

A Licensed Vocational Nurse is a member of the healthcare team who works under the direction of physicians and registered nurses. LVNs provide direct client/patient care in a variety of settings such as, but not limited to: acute care hospital, convalescent, rehabilitation hospital, clinics, physician offices, home health, and hospice care.

When you enroll in the Vocational Nursing program at Unitek College, you'll learn the skills needed to provide basic care, assist with activities of daily living, implement procedures in assessment, obtain vital signs, administer medication, and more!

Vocational Nursing students benefit from more than 900 hours of combined hands-on training in simulations, labs, and healthcare facilities, allowing them to enter the healthcare industry with confidence. In addition, students receive assistance in passing the NCLEX and becoming a Licensed Vocational Nurse (LVN) in California.
