

SCHOOL OF NURSING AND ALLIED HEALTH:**Associate Degree of Science in Nursing Program**

Registered Nurses (RN) are valued members of healthcare teams in any hospital or community healthcare setting. RNs are patient advocates, responsible for nursing care of all patients and their families, and supportive care and education for diverse populations in a variety of health care settings.

RNs administer, coordinate, delegate, and supervise nursing interventions that promote and support the emotional, mental, spiritual, and social well-being of patients and their families.

Unitek College's unique Associate Degree of Science in Nursing Program provides the education and training that can successfully prepare the nursing students with the knowledge and skill competencies necessary to meet the challenges and functions of a registered nurse. The Associate Degree of Science in Nursing Program offers students entering the nursing profession for the first time and Licensed Vocational Nurses advanced placement opportunities that prepare them to take the California state board exam. The Associate Degree of Science in Nursing Program is approved by the California Board of Registered Nursing.
